

HIKING IN CADIX

Hike the waterfront in Cadiz

Type: Discovery

Walk along the oceanfront to the Castle of San Sebastián. According to legend, the Temple of Kronos (a Titan of the Greek gods) was first built here. A chapel was built in the 1400s by Venetian boat crews and the irregular, fortified castle found on the site now was built in 1706. It defended the northern section of the city from attack. Because of its unique shape and décor, it has served as backdrop for many films.

We'll return via the city's historic center and authentic neighborhoods, admiring the elegant homes painted in glorious pastel colors and decked out with ironwork balconies.

Following our tour, we'll return to the boat.

The walk is approximately 4.5 miles.

Level of difficulty: low.

Altitude difference: none.
