

The Kaisariani Monastery

The Kaisariani Monastery

Duration: 4h · Type: Discovery

This beautiful Eastern Orthodox monastery sits in the forest at the foot the Mount Hymettus, right outside of the city. The verdant slopes of Mount Hymettus are a haven from the hustle and bustle of Athens, especially in the hot summer. Monks first built the monastery in the 11th century over a shrine to the goddess Aphrodite. The frescoes on the ceiling of the church are a fascinating study of Eastern Orthodox art.
