Visit to the Königstein Fortress, immersed in the Christmas fairy-tale

Type: Classic

Departure by coach to Elbsandsteingebirge: the sandstone mountains of the Elbe. This mountain range is located on the banks of the Elbe River in Saxon Switzerland (Germany) and Bohemian Switzerland (Czech Republic). The region is known for its stunning sandstone formations and the diversity of its fauna and flora, which is unique among the middle mountains of Germany. Crossed by the Elbe, Saxon Switzerland is home to several ruins of buildings constructed to protect trade routes, such as the Königstein Fortress and Hohnstein Castle. Some of these constructions later became hideouts for bandits. You will continue with a visit to the Königstein Fortress. This fortress, built in the 13th and 16th centuries, crowns the Königstein hill and overlooks the large bend in the Elbe. Expanded in the 17th and 18th centuries, it served several times as a refuge for the Saxon court. During this festive season, you will discover the building beautifully decorated, with Herrnhut stars symbolizing the Bethlehem star, wooden pyramids, candle arches, and a multitude of Christmas figurines. Return on board.
