NOTO

Noto

Duration: 4h30 · Type: Classic

Totally destroyed by the 1693 Sicilian earthquake, the current town of Noto was built on the left bank of River Asinaro, about 8 miles from the previous town. We'll enjoy a lovely stroll through the historic center taking in the characteristic architecture of the golden-yellow limestone buildings. On the right above the piazza Immacolata, we'll come across the Church of Saint Francis Immaculate at the top of an impressive staircase. Opposite the splendid cathedral in town, there is the Palazzo Ducezio, which houses the Municipal Hall. We'll visit the cathedral, whose facade incorporates baroque motifs and classical elements. Inside, the three aisles of the church are divided by tall pillars, and in the chapel at the end of the right aisle is the silver urn of San Corrado, the patron saint of the city.
