PALAMOS, FISHING MUSEUM AND BOGEDA

Palamos, fishing museum and bogeda

Type: Classic

The Palamos Fishing Museum has a rich collection of past, present, and future tools and objects for fishing off the Costa Brava coast. This is the only museum dedicated to this theme in the Mediterranean. One of the highlights is being able to board actual fishing vessels. Then you will head to a local winery in the region for a tasting of wines, cheeses, and embutidos (a traditional local cured-meat specialty).

PLEASE NOTE

- The order of the visits can change.
