Porto Santo Stefano

Porto Santo Stefano

Duration: 4h · Type: Classic

Stroll through the charming city center and visit the Fortezza Spagnola (Spanish Fortress). Built by Spain in the second half of the 16th century, the fortress is part of the city's foundation. Once construction was finished, Spanish and Italian families began to set up house in Porto Santo Stefano. During Napoleon's reign, the French reinforced the structure to better resist British ship attacks. From the top of the fortress, you can see the other watchtowers dotting the landscape.
